CARRIER OBJECTIVE

Seeking a Fullstack developer position in a reputable organization where I can apply my engineering skills to drive the company's success while expanding my knowledge through new experiences and challenges.

EDUCATION

- GMR Institute of Technology** 2022-2025
Bachelor of Technology CGPA: 8.2
- Government Polytechnic, Vijayawada** 2019-2022
Diploma, Andhra Pradesh Percentage: 80

EXPERIENCE

Pixwlvind | MERN-Stack Web Development - Visakhapatnam

- Worked on several web development projects, including creating a collection of user orders and implementing user authentication using JWT, bcrypt, React.js, MongoDB, Node.js, Express.js, HTML, CSS, and JavaScript.
- I am Contributed to both frontend and backend web development as part of an internship.

Internship Studio-CIT | Web Designing and Development - Virtual Internship

- Developed several web projects, including creating a Flipkart clone using HTML, CSS, JavaScript, and React.js.
- I am Focused on frontend web development during the internship.

SKILLS

- CS-Core** : Data Structures,OOPs,DBMS
- Programming Skills** : Python,Java(Basics) HTML,CSS,Javascript, Bootstrap.
- Frameworks and DB** : React.js,Node.js, Express.js | MongoDB,MySQL.
- Platforms and Tools** : GitHub, Vercel, Render, Vs-Code,Netlify, AWS Console,Chat-gpt.
- Soft Skills** : Team work, problem-solving, Time Management, and Positive Attitude,Communication.
- Hobbies** : Valley Ball, pencil drawing, listening to music,Browsing new technologies.

PERSONAL PROJECTS

- WORKLOAD MANAGEMENT AND SUBSTITUTION SYSTEM FOR FACULTIES**
A faculty-friendly application that notifies eligible faculty members by email when a substitute is needed, following a First-Come-First-Serve (FCFS) approach. Key features include an easy-to-apply process, expiration handling, time limits, authentication, automated email notifications using Nodemailer, and a responsive user interface.
– **Tools and Technologies used:** vs-code, Chat-GPT, MERN stack, Nodemailer, GitHub, Bootstrap,vercil,render.
- COLLABORATIVE WORKFLOW MANAGEMENT AND TASK ALLOCATION**
Tracks daily task progress within projects, enabling team leaders to assign tasks and teammates to complete them.Reduces the need for frequent meetings, allowing leaders to monitor progress directly via the application.
– **Tools and Technologies used:** vs-code, Chat-GPT, MERN-stack , Nodemailer ,GitHub, Bootstrap,vercil,Render.
- CANVAS (CLONE)**
A UI Builder consisting of a left sidebar with pre-made components, a canvas for drag-and-drop editing, and a right sidebar with Design and Data tabs for styling and linking content.Provides instant updates to changes made on the page.
– **Tools and Technologies used:** vs-code, Github,MERN stack, Render, vercil, Bootstrap,github, Redux,React DND.

PUBLICATIONS

- A Web Application Faculty Leave and Substitution Management System for Colleges. -Main Project

CERTIFICATIONS

- Programming in Python- Couresera | -Coursera.
- AWS Cloud Practitioner Essentials . -Aws
- Web Designing and Development Internship. - Internship Studio

ACHIEVEMENTS

- Participation Certificate on FlipCart grid-6.0 event in 2024.
- Participation Certificate on Web-O-tsav event in Stepcone-2024 at GMRIT College.
- Participation Certificate on Design-Nexus event in Avishkara-2024 at Raghu Engineering College, Vizag.
