Pixelvind pvt.ltd | JAVAFullstack - (4-months) - Visakhapatnam

- Contributed to full-stack web development projects like Collaborative Workflow Management, that help manage tasks and workflows collaboratively and Task Allocation, focusing on building a collaborative, user-friendly, secure, and responsive application.

Internship Studio-CIT | Web Designing and Development - Virtual Internship

- Developed several web projects, including an Automated Smart Job Application System designed to assist job seekers.
- Contributed to full-stack web development project both frontend and backend operations, focusing on building a collaborative, user-friendly, secure, and responsive application.

SKILLS

CS-Core : Data Structures, OOP's and DBMS
Programming Skills : Python, JAVA, HTML, CSS, React Js, Bootstrap.
Soft Skills : Multi-tasking, Team work, Problem-solving, Time Management, and Communication.
Hobbies : Valley Ball, Pencil drawing, listening to music, Browsing new technologies.

PROJECTS

- **WORKLOAD MANAGEMENT AND SUBSTITUTION SYSTEM FOR FACULTIES - (MERN-Stack)**
A faculty-friendly application that notifies eligible faculty members by email when a substitute is needed, following a First-Come-First-Serve (FCFS) approach. Key features include an easy-to-apply process, expiration handling, time limits, authentication, automated email notifications using Nodemailer, and a responsive user interface.
- **COLLABORATIVE WORKFLOW MANAGEMENT AND TASK ALLOCATION - (JavaFull-Stack)**
This Project involves creating systems that help manage tasks and workflows collaboratively, Tracks daily task progress within projects, enabling team leaders to assign tasks and teammates to complete them within Time. Reduces the need for frequent meetings, allowing leaders to monitor progress directly via the application.
- **AUTOMATED SMART JOB APPLICATION SYSTEM - (React js)**
An automated system that personalizes and sends job applications with resumes to HR contacts, streamlining the job search process for seekers. It is user-friendly and highly efficient, ensuring a seamless and professional application experience.
